*The Leader in
Animal Comfort*

**Comfortable Cows Make
More Milk**

The only cow mattress system that feels, gives, and behaves like natural pasture.

Pasture Mat[®]

The Pasture Mat[®] recreates the characteristics of a pasture therefore increasing the amount of resting time.

Poly Pillow[™]

When Poly Pillow[™] is installed it helps to index the cow. Placement is everything for a clean and waste-free stall.

Pack Mat[™]

Pack Mat[™] creates a more secure and comfortable stall base and reduces sand usage.

Premium Pad[™]

Premium Pad[™] provides additional comfort and helps maintain the smooth surface of the Pasture Mat[®] cover.

Pack Mat™

For the Sand Stall Dairyman

Install Pack Mat™ instead of filling your lagoon with sand

Owner's Report

- Reduces sand up to 80%
- Cows get up and down easier
- Stalls are easier to clean
- Reduces sand-laden manure
- Prevents cows from digging
- Is softer than 8" of sand
- Stalls always look freshly manicured

Pack Mat™ gives a cow the feeling and comfort of a deep-bedded pack without the problems.

Maintains consistent stall dimensions

Handle Manure NOT Sand!

Easier manure handling and less wear and tear on equipment.

Patent # 0684760 France, Republic of Ireland, Britain, Denmark, Holland German Patent # 0694 23 746.9
